The breeds listed by the Equus Survival Trust are those known to have a viable breeding population in North America. Category status is calculated (in part) by active national and global breeding populations.

EST STATUS:

Critical/Nearly Extinct
Critical
Threatened
Vulnerable
At Risk
Watch

Estimated Global Population:

Fewer than 100 active breeding mares
100 - 300 active breeding mares
300 - 500 active breeding mares
500 - 1500 active breeding mares
1500 - 3000 active breeding mares
3000 - 5000 active breeding mares

Recovering - Previously listed. Exceeds *Watch* category but may need monitoring
Study - Breeds of genetic interest that require additional study for consideration

*Extinction
is forever™ ...*
